¹ All TATs are in business days assuming plated, pure cultures are received. Receipt of slant or broth cultures requires subculture to be performed prior to performing identification, which may affect TAT.
² Tier 2 and Tier 3 STAT processing requires receipt of the sample(s) prior to 9:30am.
³ All VITEK-MS samples are streaked for fresh growth before testing. This may affect TAT as TAT does not start until pure cultures are obtained.
