

High potent APIs

Cambrex is **the** small molecule company that provides drug substance, drug product and analytical services across the entire drug lifecycle. Enjoy working with our experts to accelerate your small molecule therapeutics into the market.

High potent API experience

Cambrex can reliably develop and manufacture a broad spectrum of HPAPIs and compounds.

- Immunosuppressants
- Cytostatics/protein kinase inhibitors
- Ultra-potent cytotoxic drug substance
- Drug linkers
- PEG & cyclodextrin polymeric conjugations
- Drug product intermediates
- Antibody Drug Conjugates (ADC) payloads

High potent API manufacturing capabilities

- Highly regimented safety protocols
- Controlled access to all areas
- Best-in-class barrier isolation
 - Process development
 - Scale-up of toxicology lot to commercial quantities in a cGMP environment
 - Development and manufacturing of HPAPIs and intermediates to 0.01 µg/m³
 - Lab scale cGMP manufacturing up to 20L
- cGMP kilo lab up to 150L
- cGMP pilot plant
- Commercial manufacturing up to 16,000L
- Multi-purpose solids handling suite
- cGMP micronization facility

Occupational Exposure Limit (OEL) & Exposure Control Bands (ECB) classification

- Mode of action & mechanism
- Toxicology data
- Chronic adverse effects
- Core chemical structure
- Dosage form & range
- Prior handling experience
- Comparison with known compounds
